ASAD ISHAQ
SOFTWARE ENGINEER

OBJECTIVE

Experienced Full Stack Developer specializing in MERN stack technologies with expertise in building scalable web applications and cross-platform mobile solutions using React Native.

EXPERIENCE

MERN STACK DEVELOPMENT

PNY Trainings | Multan
- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js in a structured training environment.
- Built RESTful APIs with Node.js & Express, integrating MongoDB for efficient data storage and retrieval.
- Designed dynamic and responsive React.js frontends with state management using Redux/Context API.
- Implemented user authentication (JWT) and authorization for secure access control.
- Collaborated in team projects, following Agile methodologies to deliver scalable and maintainable code.
- Gained hands-on experience in debugging, performance optimization, and deployment (Heroku/Vercel).

WEB DEVELOPMENT INTERN

NextGen Learners | Remote
- Working on real-world web projects with an emphasis on frontend technologies and responsive design.
- Submitting weekly assignments and receiving mentor feedback for continuous improvement.

MOBILE APPLICATION DEVELOPMENT

Entry-level Android Developer with foundational knowledge in React Native and mobile application development. Skilled in building user-friendly interfaces. Can create and manage basic projects.

MICROSOFT OFFICE

Proficient in Microsoft Office (Word, Excel, PowerPoint, Pdf) with hands-on experience in creating professional documents, spreadsheets, and presentations. Strong attention to detail and organizational abilities to ensure efficient and accurate task execution
