EDUCATION

Muhammad Nawaz Shareef University of Agriculture   Multan, PK

Bachelor of Computer Science   Sep, 2021 – Jun, 2025

CGPA: 3.60

Relevant Coursework: Artificial Intelligence, Data Structure & Algorithms, Mobile & Web Application, Database Systems, Data Mining & warehouse.

EXPERIENCE

NextGen Learners   Remote

Web Developer   Jun, 2025 – Jul, 2025

- Gained practical experience in HTML, responsive design and modern CSS layout techniques, while building multi-section pages with clean structure and cross-browser compatibility.
- Learned to build interactive web interfaces using JavaScript—capturing and validating user data, manipulating the DOM and adding dynamic behaviors.
- Introduced to Node.js and Express, including creation and test of RESTful APIs using GET, POST, DELETE methods and handle form submissions and store data in files on the server.
- Hands-on experience in remote collaboration, version control and delivering weekly tasks under mentorship.

PNY Trainings   Multan, PK

Full Stack Development   Feb, 2025 – Jun, 2025

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js in a structured training environment.
- Built RESTful APIs with Express, integrating MongoDB for efficient data storage and retrieval.
- Designed dynamic and responsive React.js frontends with state management.
- Implemented user authentication (JWT) and authorization for secure access control.
- Gained hands-on experience in debugging, performance optimization, and deployment (Vercel).

ACHIEVEMENTS & ACTIVITIES

- Harvard CS50x Puzzle Day Winner among 11,00+ participants | Scored 9/9
- Solved 20+ LeetCode problems
- Earn Badge IT Specialist – JavaScript issued by Certiport

SKILLS & INTERESTS

Programming Languages: Python (DSA, AI), JavaScript (Web applications)

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Next.js

Backend & Frameworks: Node.js, Express.js, php

Databases: MongoDB, MySQL

Tools & Platforms: Git & GitHub, VS Code, Postman, Google Colab

Interests: Love building side projects and trying out new dev tools.

PROJECTS

URAAN – Freelance Marketplace ([FYP](#))
- Local freelance web app where skilled workers offer services and training, and clients can easily hire or students can learn from professionals.
- Built with **MERN** stack technologies for a modern, full-stack solution.

Nextjs – Whisper Box ([Code](#))
- Secure full-stack web app with user authentication, email verification, AI integration, enabling users to track activity, and feedback history.
- Developed with Next.js, ShadCN UI, MongoDB, and NextAuth for a modern and scalable solution.

Frontend Projects
- [Web3 Template](#) using React, Vite and Tailwindcss.
- [Dropdown](#) using React, Bootstrap and CSS.
- [BrewVoyag](#) using HTML, CSS and Bootstrap.
- Designed and deployed several responsive frontend websites with attractive interfaces, enhancing user engagement like **Pizza Delight** & **Love Match**.

Backend Projects
- [Prodex](#) product Management backend-focused application where users can sign up, sign in, add, update, search and delete products developed with **MERN**, featuring robust API design and CRUD functionality.

COURSES & CERTIFICATES

- Full Stack Web Development (MERN)   PNY Trainings   May, 2025
- [AI Python for Everyone](#)   DeepLearning.AI   July, 2025
- [Google AI Essentials Specialization](#)   Google   July, 2025
  - [Start Writing Prompts like a Pro](#)
  - [Design Prompts for Everyday Work Tasks](#)
  - [Speed Up Data Analysis and Presentation Building](#)
  - [Use AI as a Creative or Expert Partner](#)
